**Re: Vocational Education Training (VET)**

Dear Families

Your child has indicated that they are considering a Vocational Educational Training (VET) course for 2024. There have been significant changes to the VET in Schools program, which is being replaced by the Flexible Industry Pathway program (FIPS). This means changes to the application process, together with availability of funding and potentially delivery of various courses. Some of these changes have been included below.

Students who choose to embark on a Flexible Industry Pathway will be required to participate in a VET Readiness Orientation (VETRO) which includes upfront assessment, induction and orientation to VET carried out by a Registered Training Organisation (RTO). The VETRO will be carried out in Year 10 after the student has made a decision to commence the Flexible Industry Pathway. The VETRO will determine the student's readiness and identify a personalised approach to the learning which may include additional training and wraparound supports. The specific arrangements required for the student to complete the Flexible Industry Pathway will be determined through the VETRO. There is a tight timeline for this process to commence so we are asking that the attached **VET Flexible Industry Pathway Form** be completed by **Friday 15 September**.

As part of the Flexible Industry Pathway we have been advised that some courses will be subsidised, however, it is highly likely that there will also be a co-contribution fee for these courses. Other courses may be available at the full price. The level of funding for individual courses is determined by the state government with co-contribution fees determined by the RTO provider.

VET fees range from \$300 to over \$3,000 depending on the type of Certificate chosen. As VET is an elective pathway, the College will cover up to \$500 per student (course fee only). The remaining VET fees will be charged to families. Please remember that College fees are still payable if a VET pathway is chosen, VET fees are an extra cost.

Included with this letter is an overview table of the VET courses, which contains indicative fees (which may be subject to change) and other relevant information known. VET information is available on our website.

Currently most courses are delivered in block week sessions throughout the year, whilst others are delivered one day a week. Courses which are delivered regionally incur additional costs associated with travel and accommodation.

If you require further information or have any queries, please contact Mrs Susy Rogers on 8648 9700.

Your sincerely

Susy Rogers
