What is SEQTA and SEQTA Engage?

SEQTA is an advanced teaching and learning management system incorporating all aspects of the learning and citizenship of a student's participation in school. The SEQTA platform is constructed of three integrated, web-based portals: SEQTA Teach, for teaching staff; SEQTA Learn, for students; and, SEQTA Engage, for parents and caregivers. SEQTA Engage is the parent and caregiver online portal allowing you to be an active participant in your child's learning.

SEQTA Engage allows you to:
- Access an overview of learning for each subject your child studies
- Follow the learning outcomes and activities of each subject in your child's timetable
- Track homework tasks given by teachers
- Monitor your child's learning progress as their assessments are marked by teachers
- Access your child's timetable
