**Re: COVID-19 Vaccination – Year 11 & 12 students, aged 16 and over**

Dear Families

During September, South Australian Year 11 and 12 students aged 16 and over can get priority walk-in access for their COVID-19 vaccination at SA Health run vaccination clinics.

This walk-in access will give Year 11s and 12s the opportunity to be fully vaccinated before they finish the school year, which is typically a few weeks earlier than other year levels.

Year 11 and 12 students can receive a vaccination without an appointment at Port Augusta or any of the other clinics listed on the following website [www.covidvaccine.sa.gov.au](http://www.covidvaccine.sa.gov.au).

Students walking in at the above clinics will need to show their student card.

Those with an underlying medical condition can walk in at the above clinics but will need a referral from their general practitioner. Alternatively, they can book to get vaccinated at participating GPs.

We encourage students completing SACE exams and assessments to prioritise their COVID vaccination during September.

Vaccination arrangements for other secondary year levels are currently being finalised with SA Health.

In the meantime, vaccination is available for all South Australians 16 years of age and over at participating GPs and respiratory clinics in metro and regional South Australia. Families and students who are eligible are encouraged to book ASAP at [www.covidvaccine.sa.gov.au](http://www.covidvaccine.sa.gov.au).

Regards

Mr Damian Smith  
Principal
